

PLANTWISE

Advanced Automation for Asphalt Drum Mix Plants

Leveraging Libra's 40+ years of experience designing and manufacturing asphalt plant automation, the **PlantWise Drum Mix Control System** is without question the most advanced blending system on the market today.

Features include:

- Adaptability for Retrofit or Total Plant Control of Nearly Any Plant
- Separate Belt Scale Integrators to Provide State-of-the-Art Calibration Ease with the Severability Needed for Quick Problem Isolation
- Extensive Use of High-Speed Networking to Increase Data Update Rates and Reduce Wiring
- Integral Manual Control via Software Control "Panels".
- Monitors Motor Currents and Plant Parameters to Aid Optimization of Efficiencies and Allow Predictive Maintenance Before Failures Take Down the Plant
- Easy Calibration of Plant Equipment
- Real-Time Trending of Key Process Parameters
- Fully Graphic Operator Interface
- Instantaneous Production Rate Changes
- Tracks Equipment Maintenance and Re-Calibration Schedules
- Facilitates Future Expansion
