

## *LIBRA PRINT TERMINALS*

### *Experience the Advantages:*

#### Company

- One-source solution and support (eliminates finger pointing)
- Generation3 software configured for printer
- Ticket layout pre-configured by Libra

#### Printer

- Document presenter holds ticket for driver and retracts it into an internal box if not taken
- Loop print presenter ensures jam-free operation by eliminating user access to the document while it is printing
- Best reliability of print head, cutter and presenter (2x to 10x other thermal printers)
- Handles 3" or 4" wide paper and various paper thicknesses
- Highest-speed printing
- Exceptional print quality

#### Enclosure

- Industrial enclosure designed to house printer and paper roll (up to 10" diameter)
- Heat shield keeps printer cool in direct sun
- Internal heater keeps printer warm in freezing climate
- Motion-activated light illuminates when enclosure is opened
