

MIXER - BLENDER

Inpro/Seal's **AirMizer**[®] can replace the packing seal set eliminating all shaft sealing maintenance and sealing failures.

Inpro's unique non-contacting labyrinth design uses low pressure air as a barrier to contain product. Contacting parts ride on an air cushion eliminating maintenance.

- Permanent sealing solution
- Eliminate product leaks and loss
- Minimal air consumption
- Available in various materials
- Solid and split designs
