# CAPABILITY + EXPERIENCE = QUALITY

Millions of **Stephens-Adamson** belt conveyor idlers have been used to move virtually billions of tons of bulk materials since 1901. This experience coupled with continuous testing and design improvements has resulted in the highest quality, most dependable idler in the industry.

We have a complete product line to meet whatever needs our customers may have.

Whether you want regreasable or sealed, inline or offset, 18" belt width or 120", light duty or heavy duty, **Stephens-Adamson** has the right idler for you. With a complete range of idlers, which meet or exceed CEMA ratings, **S-A** has the products for your specific applications.

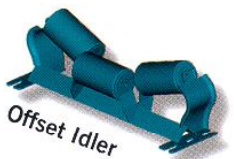

# STEPHENS-ADAMSON Conveyor Idlers

Stephens-Adamson offers the most complete range of idlers in the industry. From light duty to heavy, from 18" belt width up to 120", S-A has the right idler for the job. Choose between a regreasable idler employing Stephens-Adamson's exclusive SYNCHRO-LUBE™ SYSTEM or a Sealed For Life Idler. We also offer a choice between the roll gap reducing offset frame and the popular inline idler frame on our CEMA B and CEMA C rated idlers.

Steel Troughers, Training Idlers, Flat Returns, V>Returns, Garlands, Rubber Tire Impact Idlers, Rubber Disc Returns are just a few of the variations available in the many series we offer. Regardless of your requirements, **Stephens-Adamson** has a low cost, high value idler to do the job and the Engineering Team to help advise you with the best possible selection for your application. ## Stephens-Adamson ...for optimal reliability

A common cause of under-utilization within a facility is conveyor inefficiency. **Stephens-Adamson** products improve efficiency, for optimal reliability.

Our product range covers every aspect of a conveyor, from efficient loading to a clean discharge. Our impact stations, wear liners and sealing systems work together to protect the conveyor belt, center the load and prevent costly spillage. Our total range of idlers carries the load to the discharge end. Lagging products ensure an efficient transfer of power from drive to conveyor belt. The most comprehensive line-up of belt cleaners available on the market means **Stephens-Adamson Conveyor Components** can offer the best possible solution to your cleaning and carryback problems. Our pulleys, holdbacks (backstops), and belt training products are world-class. Our conveyor hood products protect both your equipment and the environment with proven technology.

At S-A, we know our customers' needs: timely response, direct involvement and ongoing follow up. No matter how much we grow in size and advance technically, the bottom line is customer service. That's what makes **Stephens-Adamson** products and service *better by design*.
