

Razerlink™ Mobile Stacker

Portable Go Anywhere, Do Anything Stacker, Loader and Feed Conveyor

Multi-Functional Machine
In one unit, owners can perform several functions including truck unloading, bulk material transfer, stockpile and/or loading.

Application Specific 
Depending on the job, units can be equipped with drive over ramps or a hopper, tracks or tires and telescoping or fixed length discharge.

Quality Material
One time handling of material from truck and dozer to stockpile, barge or railcar allows the material to maintain high quality segregation.

Portable Advantage
Combining travel mobility with a telescoping conveyor accelerates load times by limiting downtime common to repositioning equipment.

**Unload,
Load
and/or
Stack**

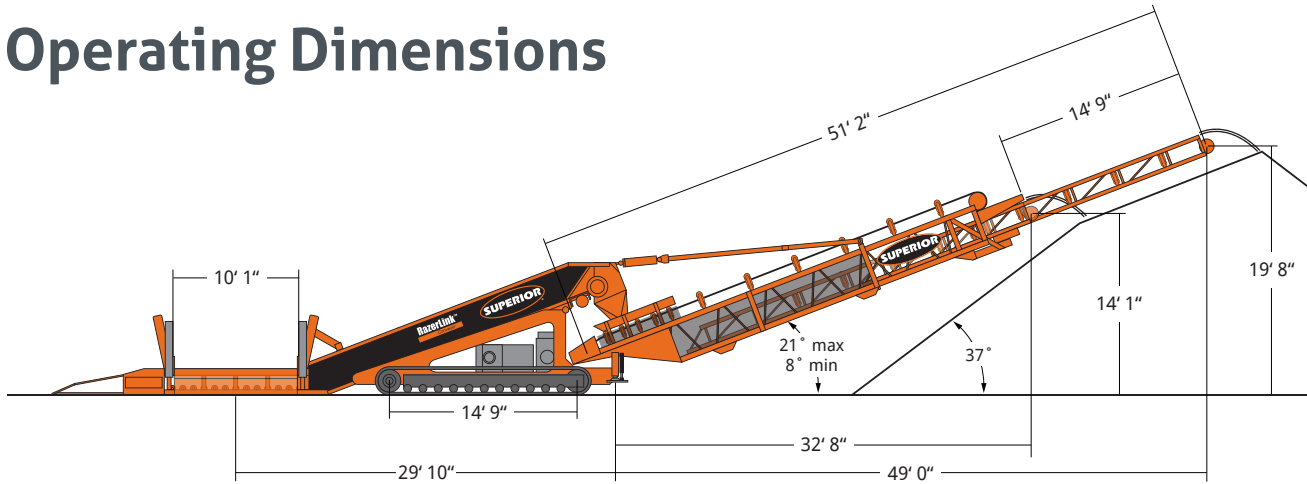

Superior Experience
A unit that combines the technology of popular, well-established brands of our TeleStacker® Conveyor and RazerTail® Truck Unloader.
