

## WK-V Series Electric Winches

### Description:

The Model WK1000-V and WK1500-V Electric Winches are rugged and reliable winches designed for operation on Standard 115V Single Phase Electric Power. Adjustable speed control allows the operator to vary winch speed from 0 to 100% speed at full rated line pull. High ratio helical-worm gearing combined with an automatic spring-applied holding brake ensure your load is not accidentally lost in the event of power failure. All of these features along with their compact, heavy-duty design make the WK-V Series winches a versatile, convenient and economical solution to many hauling and lifting challenges.

### Standard Features:

- 115 Volt single phase power
- Variable winching speed for precise loadpositioning
- Severe duty TEFC electric motor
- High ratio worm gearing
- Compact design with 10ft long cord
- Direction control pendant
- Direction and speed controls mounted on the winch
- Ready to plug in to wall outlet rated for 20 amps or more
- Dual winch position (horizontal/vertical) bolt down mounting feet
- Designed for outdoor use

### Optional Features:

- Other supply power options:
  - 230V / 1 Phase Power
  - 230V / 3 Phase Power
  - 460V / 3 Phase Power
- Wire rope installed
